Guided tour of the old town

The Tübingen old town with beautiful historical buildings, picturesque squares and the Neckar river is certainly worth a visit. These sights as well as their links with famous scientists and poets and the history of the University (est. 1477) will be covered in approx. 2 h.

Punting boat trip on the Neckar river

One of the nicest ways to take in the beautiful scenery of Tübingen is on board of a traditional punt: gliding past the old town and lushly green river banks whilst being able to chat and hear historical facts from the boat guide will be worth your while.

Tour through Hoppe-Seyler's castle laboratory, the "cradle of modern biochemistry"

In 1818 the University installed a chemistry lab in the former kitchen of Hohen-Tübingen Castle. It soon became one of the first research sites of biochemistry worldwide where Hoppe-Seyler and Miesslerer worked towards isolating DNA for the very first time.

NOVEL CONCEPTS IN
 INNATE IMMUNITY

12–14 June 2019
 Tübingen, Germany

Date of print: November 2018

www.innate-immunity-conference.de

WELCOME NOTE

Dear colleagues and friends,

On behalf of the Eberhard-Karls-University Tübingen and the German Society for Immunology (DGfI) it is our pleasure to invite you to join our conference "Novel Concepts in Innate Immunity NCI 2019", held from June 12–14, 2019 in Tübingen.

We have already lined up an exciting list of invited speakers and are especially looking forward to Nobel Laureate Bruce Beutler's keynote address.

Complementing the previous list of interesting scientific topics by the emerging field of "Trained Innate Immunity", we hope to touch on many of the most interesting developments in the field of innate immunity once again. The packed scientific program will be enhanced by an attractive industrial exhibition and a social program to explore the latest technical developments in research as well as the picturesque Tübingen old town and scenery.

You can contribute to the meeting by submitting abstracts for poster presentations on your current research work and results. We highly encourage both established and junior researchers to do so as some abstracts will be selected for plenary oral presentations or lightning talks to more prominently feature and discuss exciting new results you'd like to share.

All abstracts should be submitted online until March 14, 2019.

We will be very happy to welcome you in June 2019 in the beautiful University city of Tübingen and look forward to an exciting meeting!

Yours sincerely,

Alexander Weber

NCII 2017

ABSTRACT SUBMISSION

We are looking forward to your contribution concerning the following topics:

- | Pattern recognition receptors and inflammasomes
- | Innate immune cell cross-talk
- | Innate lymphoid cells
- | Trained innate Immunity
- | Antifungal innate responses
- | Host-microbiota interactions
- | Antiviral innate responses
- | Innate immunity in the skin
- | Innate immunity and oncogenesis

ABSTRACT DEADLINE

Please submit your abstract online until March 14, 2019 at www.innate-immunity-conference.de.

Confirmed Speakers

- | Andrea Ablasser (Lausanne/CH)
- | Bruce Beutler (Houston, TX/US)
- | Gordon Brown (Aberdeen/GB)
- | James di Santo (Paris/FR)
- | Vishva Dixit (San Francisco, CA/US)
- | Eran Elinav (Rehovot/IL)
- | Mathias Heikenwälder (Heidelberg/DE)
- | Andres Hidalgo Alonso (Madrid/ES)
- | Veit Hornung (Bonn/DE)
- | Tim Lämmermann (Freiburg/DE)
- | Eicke Latz (Bonn/DE)
- | Salomé Leibundgut-Landmann (Zurich/CH)
- | Ruth Ley (Tübingen/DE)
- | Jenny Mjosberg (Stockholm/SE)
- | Mihae Netea (Nijmegen/NL)
- | Luke O'Neill (Dublin/IE)
- | Jan Rehwinkel (Oxford/GB)
- | Fiona M. Watt (London/GB)
- | Laurence Zitvogel (Villejuif/FR)
